Dashboard for DPL's and DPE's

Key dashboard benefits:

quickly & easily access student information whenever you need it; information is up to date and refreshed every morning; access to individual student information or lists of students by School, Department or Supervisor.

Snapshot Information can be exported to Excel.

This lists all students registered to you as either supervisor or advisor. This view is exclusive to you as a supervisor

Search for former students

Takes you to an independent search by name and gives basic information which can be useful for references etc (note this information can only call on records from the previous 5 academic years)

Current Status – Academic History/Engagement/student Details/Application information & Disability Please note that personal contact details are not visible to academic staff. Most of these tabs are more relevant to UG

Supervisor Team (and % supervision allocation), Upgrade Teams

This section details both the supervisory team members as well as recorded supervision percentage allocation. The primary supervisor is listed first
