Masters by Research - Guide for departments

This document is relevant for all Masters by Research programmes except for MSc Biological Sciences by Research.

Masters by Research programmes fall under the Postgraduate Research regulations (see appendix 1) as of 2014/15

Start Date: Students can start at any time in the academic year. The only exception would be if there are taught components (see below) which the student must complete at a set time in the programme. In such cases, they would need to start attending within 3 weeks of the start of the relevant term.

Duration: One year full-time / two years part-time.

Structure of a Masters by Research programme

Dissertation

- All programmes have dissertations which carry 180 credits.
- The dissertation length is a maximum of 40,000 words, including references, footnotes and endnotes but excluding the bibliography and appendices etc. Departments however can recommend a lower word count, as appropriate to their discipline.
- Students have the option to present in a form other than a monograph (as per the main PGR regulations).
- The dissertation should:
  (a) synthesise knowledge from the subject or discipline and apply it to suitable research problems, hypotheses or research questions;
  (b) provide a critical discussion of relevant major theories, debates and concepts;
  (c) demonstrate the capacity to design and carry out an independent research project using appropriate research methods and utilizing suitable skills and techniques;
  (d) undertake a clear analysis of the results of the project, and show informed and critical use of theories and concepts to interrogate these results/findings;
  (e) provide a reasoned and coherent account of the main findings and their significance;
  (f) display good presentation and referencing skills.

Research Methods taught components

- Some programmes may include a taught component which must be passed. Students taking these programmes are required to pass the taught component satisfactorily in order to qualify for the award. Students who fail the taught component will not normally be offered the opportunity to resit this component and will therefore fail the programme (Appendix 1, para. 4 of the PGR regulations)
- ML5002 - Taught course for Arts & Social Sciences departments. There is the expectation that this course will be taken by Masters by Research students in this Faculty unless there are compelling reasons that the course is unsuitable for a particular student.
- If the programme does include a taught component, there are 4 different options available. See table on next page for an overview:
## Examination of the dissertation

### Prior to submission
- The following emails regarding the submission deadline will be sent by Research Degrees:
  - Approx. 6 months prior to deadline – clarification of deadline to students and departments
  - 2 months prior to deadline – reminder to students who have not submitted their entry form (cc dept.)
  - 1 month prior to deadline – deadline reminder to all students (cc dept.)
- The [entry form](mailto:researchdegrees@royalholloway.ac.uk) for the Masters by Research examination should be completed and signed by the candidate, the supervisor and the Director of Graduate Studies and then submitted to Research Degrees (researchdegrees@royalholloway.ac.uk) two months before the submission of the dissertation. This allows time for the examiners to be approved and invited before the dissertation is submitted.
- As part of the entry form, two examiners need to be nominated - one internal examiner (who may have acted as the dissertation supervisor for the student) and one external examiner.
- Research Degrees will seek approval of the nominated examiners by the Faculty Dean on behalf of the CBEEC and issue the invitations to examine:
  - Alongside the invitation to examine the dissertation, the examiners will be sent guidance on the examination process and a link to the College regulations.
  - For dissertation examiners who are not Royal Holloway members of staff, the examining fee for 2018/19 is £130, paid by Research Degrees.

### Submission of dissertation
- The dissertation must be submitted within one year of the student’s start date (full-time) / two years (part-time).
- Two securely bound copies of the dissertation should be submitted either in person or by post to the Student Services Centre (Davison Building), Royal Holloway TW20 0EX.
- In addition, an electronic copy of the dissertation should be emailed to researchdegrees@royalholloway.ac.uk (except in cases where agreement is in place for a restriction of access for reasons of confidentiality, commercial sensitivity or patents).
- A [Declaration of number of words](mailto:researchdegrees@royalholloway.ac.uk) form, signed by the candidate and the supervisor, should be submitted with the dissertation.
• Details of the required format of the dissertation can be found in the [Guidance on the format of the Masters by Research dissertation](#).

Dispatch of dissertation

• The dissertation will be dispatched by Research Degrees to the examiners once they have both accepted the invitation to examine.

• The following paperwork will be included with the dissertation:
  - a copy of the Declaration of number of words
  - Preliminary Report form - to be completed by each examiner separately before they confer on the outcome (if no viva required) / before the viva (if a viva is required). These reports will not be made available to the students unless specifically requested by the examiners.
  - Final Joint Report form - to be completed and signed by both examiners at the end of the assessment process to indicate the outcome and to explain how the outcome has been reached.
  - List of Amendments form – to be completed and signed by both examiners if the outcome is ‘Pass subject to minor amendments’.
  - The candidate will receive a copy of the Final Joint Report with their award letter at the end of the process.

Assessment of dissertation

• It is expected that an oral examination would not normally be required for a Masters by Research unless the examiners are considering a ‘Resubmission’ or ‘Fail’ outcome. However, the examiners do have the option to request this if otherwise deemed appropriate.

• Examiners are asked to return their reports on the student’s dissertation to Research Degrees within 6 weeks of the dissertation being dispatched to them.

• If an oral examination is not required, the examiners should ensure they complete their Preliminary Report and send to [researchdegrees@royalholloway.ac.uk](mailto:researchdegrees@royalholloway.ac.uk) prior to conferring with their co-examiner about the outcome.

• If a viva is required:
  - it is the responsibility of the supervisor to organise the viva
  - it is essential that Research Degrees are informed of the date of the viva as soon as possible so that they can ensure the Preliminary Reports are received prior to the viva
  - the candidate must bring a copy of the dissertation with them which is identical in format to the dissertation submitted
  - an audio recording must be made of the viva (in addition, an Independent Chair is required by the School of Management)

• The following outcomes are available to the examiners:
  - Pass
  - Pass subject to minor corrections (to be submitted within 6 weeks of the official outcome)
  - Resubmit within 6 months
  - Fail (required level not reached and candidate is not permitted to resubmit)

• The outcome should be indicated and explained on the Final Joint Report form. If the candidate has passed subject to minor corrections, the List of Amendments should also be completed.

• The forms should be signed by both examiners and submitted to Research Degrees for processing.

Processing of dissertation outcome

• If the outcome is ‘Pass’, Research Degrees will:
  - ensure that confirmation has been received from the Director of Graduate Studies that any compulsory taught components have been passed.
  - send the outcome and the examiners’ reports first to the Director of Graduate Studies and then to the Dean of Faculty to approve on behalf of the CBBEC
  - process the outcome on Banner once it has been approved
  - send the official award letter with a copy of the examiners’ Final Joint Report to the candidate.
send a copy of the award letter and all the reports, including the Preliminary Reports, to the supervisor (cc DoGS and PGR administrator)

- If the outcome is ‘Pass subject to minor corrections’, Research Degrees will:
  - contact the candidate (cc supervisor, DoGS and PGR administrator) to provide them with the list of required corrections and make them aware of their corrections deadline (6 weeks from the date of this official notification of the outcome).
  - contact the examiner who has been nominated to check the corrections to inform them of the process and to ask them to submit a ‘Satisfactory Completion of Amendments’ form to researchdegrees@royalholloway.ac.uk once they have been checked (if the candidate’s supervisor is the internal examiner, the external examiner must be nominated to check the corrections).
  - The candidate should not liaise directly with the nominated examiner. If there are any queries, the supervisor should contact the examiner on the candidate’s behalf.
  - On receipt of the signed off ‘Satisfactory Completion of Amendments’ form, Research Degrees will process the award (see above)
  - If, after minor corrections, the dissertation still fails to meet the requirements of the Masters by Research degree, the examiners will normally recommend offering the candidate the option to resubmit the dissertation within 6 months for a second and final time (see below).

- If the outcome is ‘Resubmission within 6 months’, Research Degrees will:
  - send the outcome and the examiners’ reports first to the Director of Graduate Studies and then to the Dean of Faculty to approve on behalf of the CBEEC
  - process the outcome on Banner
  - send the resubmission letter with a copy of the examiners’ Final Joint Report to the candidate
  - send a copy of the resubmission letter and all the reports, including the Preliminary Reports, to the supervisor (cc DoGS and PGR administrator)
  - The candidate will have 6 months to resubmit from the date they are sent the resubmission letter.
  - They will be billed a flat rate resubmission fee.

Resubmission of dissertation process

- Entry form: An entry form for Masters by Research resubmission should be completed 2 months prior to the resubmission.
- Nomination of examiners: It is expected that normally the same examiners as the 1st submission will be nominated, in which case the examiners do not need to go through a re-approval process. However, if it is necessary to nominate new examiners, a section is provided on the entry form to explain the reason for this and the new examiners’ details will be sent to the Dean to approve on behalf of the CBEEC.
- The following processes are the same as for the 1st submission:
  - Invitation of examiners
  - Resubmission of dissertation
  - Dispatch of dissertation
- Assessment of dissertation: Same as for the 1st submission except for the outcome options. A further resubmission is not permitted so the options are:
  - Pass
  - Pass subject to minor corrections (to be submitted within 6 weeks of the official outcome)
  - Fail
- Processing of outcome: Same as for the 1st submission (except that a further resubmission is not an option)

Graduation

- To be eligible to attend the Winter Graduation ceremony, the award must have been approved by the Dean by 1 November. To be eligible to attend the Summer Graduation ceremony, it must be approved by 1 June.

If you have queries about the Masters by Research assessment process, please contact researchdegrees@royalholloway.ac.uk.
