1. Introduction to the College and your department

1.1 Welcome

Welcome to Royal Holloway. Royal Holloway, University of London (hereafter ‘the College’) is one of the UK’s leading research-intensive universities, with nineteen academic departments spanning the arts and humanities, social sciences and sciences.

Sitting within the top 25 per cent of universities in the UK for research rated ‘world-leading’ or ‘internationally excellent’ by the Research Excellence Framework (REF) 2014, the College combines world-class research with a truly global perspective while at the same time offering a campus and community with an intimate human scale. As a student studying toward a research degree with the College, you will have the opportunity to learn from internationally renowned academics and researchers.

During the course of your time with the College, you will pursue independent research in your academic department. The College offers a number of research degree programmes: Master of Arts by Research, Master of Science by Research, Master of Philosophy (MPhil), Doctor of Philosophy (PhD), Doctor of Clinical Psychology (DClinPsy), Doctorate in Professional Studies (DPS) and Doctorate of Medicine (Research) (MD (Research)). Your successful progress will depend primarily on your own efforts, supported by your supervisors, but also on the research environment in your department and the quality of the research training you receive.

1.2 Doctoral School

The Royal Holloway Doctoral School, established in September 2014, brings together key aspects of research student life, aiming to ensure that research students are fully integrated as members of the College’s research community and to provide you with opportunities to meet and share ideas and experiences across our three Faculties. The Doctoral School will support you throughout your progress, ensuring availability of relevant contemporary research skills and employment training alongside the highest standards of administrative and pastoral support.

The Doctoral School organizes a number of events throughout the year for postgraduate research students culminating in the annual Doctoral School Interdisciplinary Conference in June.

The Doctoral School microsite will keep you informed of news and events which may be of interest to you as a research degree student. It is also a key repository of information and advice on subjects such as funding, changes to your registration status and the examination process. It provides you with easy access to a variety of documentation and guides that you may need during your studies.

Doctoral School microsite: royalholloway.ac.uk/doctoral-school

1.3 How to find your department

The School of Mathematics and Information Security is located in McCrea Building. This can be found on the college campus map as building 17. The admin office is located in room 119.

1.4 Map of the Egham campus

Please note that student parking is very limited and a parking permit is required, which can be obtained via Security. You will need proof of insurance and a suitable form of photographic ID before a permit will be issued.

1.6 School of Mathematics and Information Security
The School of Mathematics and Information Security at Royal Holloway is a lively and friendly place with an international reputation for the quality of its teaching and research. Academic staff are active in pioneering research which is making an impressive impact on the world stage. This strong research culture influences our curriculum, helping students to keep in touch with the latest developments in the field.

The school contains more than forty full-time academic faculty members, including a mixture of computer scientists, mathematicians and social scientists. These are supported by several research assistants and a large number of research students.

In this handbook you will find some practical information and some guidelines as to what is expected of you as a research student in the Department. Further information is available on the Department website https://www.royalholloway.ac.uk/research-and-teaching/departments-and-schools/information-security/

You can also obtain information from the Director of Graduate Studies, Professor Pat O'Mahoney, who has overall responsibility for the PhD programmes, and you should contact him if you have any queries.

1.7 Research areas within your department
The Mathematics Department at Royal Holloway pursues research in a wide range of topics in pure, applied and applicable mathematics, including algebra, discrete mathematics, number theory, quantum dynamics, information security and statistics.

The ISG’s research profile takes advantage of the group's interdisciplinary nature to tackle major challenges in many different areas of information security. current research interests include, Cryptography and its applications, Security of systems and technologies, The application of socio-technical and organisational theory to cyber security, The application of economics and game theory to cyber security, Smart cards, tokens and applications, Critical infrastructure protection, Authentication, identity management and authorisation.

The research of the Information Security Group has led to Royal Holloway being recognised as an Academic Centre of Excellence in Cyber Security Research (ACE-CSR in Cyber Security.)
Our vibrant research environment having over 60 PhD students, who organize their own weekly seminar and reading groups. We also have weekly seminars on Information Security, Pure Mathematics and Quantum Dynamics.

1.8 Master by Research in your department
The departments of Mathematics and Information Security do not have a Masters by Research Programme.

2 Support and advice

2.1 Research Degree regulations and Code of Practice

The Research Degree regulations set out the various standards that shape the regulatory framework of your research degree with the College. This contains a variety of essential information, ranging from admissions to academic progression and examination.

The Code of Practice for Research Degree students and supervisors sets out good practice alongside additional information on the policies and procedures that support the standards and expectations of the College. royalholloway.ac.uk/students/study/our-college-regulations/attendance-and-academic-regulations.aspx

2.2 Support within your department

Your supervisor or a member of your supervisory team should always be the first point of contact for any questions or concerns you may have about your programme of study or your research. In addition, the Director of Graduate Studies (DoGS) exercises overall responsibility for the welfare and academic progress of the research students within your department.

2.2.1 Supervisors

On entry to the Department, each research student is allocated one or two Supervisors who are academic members of the Department. The Supervisors direct the research project and look after the student on a regular basis. They bear the major responsibility for advising the student on the conduct and progress of his or her work, for overseeing progress, and for providing support throughout the PhD/MSc. The responsibilities of the Supervisors are given in detail in the Code of Practice for the Academic Welfare of Postgraduate Research Students. A record of supervisor/student meetings is kept, including date of meeting and issues raised. In the case of Overseas students, this information may be reported to the UK Borders Agency.

2.2.2 Advisor

Each PhD and MSc student is also allocated an Advisor, an academic member of the Department working in an area more distant from the research project, who may be consulted on general matters if and when the need arises. The Advisor takes a more pastoral role and is not normally involved in supervising the PhD/MSc. The Advisor participates in the student’s annual review and other progression meetings.
The Advisor is appointed early in the student’s research programme (Advisors are nominated at the first meeting of the Postgraduate Management Committee, normally in October).

### 2.3 Student Services Centre

The Student Services Centre is located in the Davison Building and provides a single point of contact for all non-academic related queries including accommodation, fees, enrolment and graduation.

Phone: 01784 27 6641  
Email: studentservices@royalholloway.ac.uk

Find out more about the Student Services Centre: royalholloway.ac.uk/ssc

### 2.4 Research Degrees team

The Research Degrees team within Student Administration maintains research degree students’ central records, manages the administration for all research degree examinations within the College and is the first point of contact for scholarship queries. If you have a research degree query but are unsure whom to ask, contact Research Degrees and they will point you in the right direction.

Email: researchdegrees@royalholloway.ac.uk

Visit the Doctoral School microsite for more details: royalholloway.ac.uk/doctoral-school

### 2.5 Support Advisory & Wellbeing

The College offers a high level of student wellbeing support which includes triage and support through Student Wellbeing, a BACP accredited Counselling Service, dedicated disability & dyslexia support, financial and budgeting advice and support for international students. There is also access to an NHS-run Health Centre on campus.

Phone: 01784 44 3394 / 44 3132 / 27 6757  
Email: wellbeing@royalholloway.ac.uk

Find out more about Support Advisory & Wellbeing: royalholloway.ac.uk/students/help-support/help-and-support.aspx

#### 2.5.1 Student Wellbeing

Student Wellbeing provides advice and guidance to all students on personal and emotional wellbeing, to assist them in maintaining a healthy balanced lifestyle and to support them from transition to university and then in the continuation of their studies towards graduation. The Student Wellbeing team actively encourages all members of the campus community to alert them to concerns or signs of vulnerability to enable proactive engagement with intervention.

Phone: 01784 44 3395 / 44 3132 / 27 6757  
Email: wellbeing@royalholloway.ac.uk

Find out more about Student Wellbeing: royalholloway.ac.uk/students/help-support/wellbeing/student-wellbeing.aspx
2.5.2  *Disability & Dyslexia Services (DDS)*

If you have a disability, long standing medical condition or specific learning difficulty, it is important that you bring it to the College’s attention as soon as possible.

The College Disability & Dyslexia Services support dyslexic and disabled students and those with mental health or chronic medical conditions to demonstrate their academic abilities by arranging support packages, dyslexia assessments and study skills sessions.

Phone: 01784 27 6473  
Email: disability-dyslexia@royalholloway.ac.uk

Find out more about Disability & Dyslexia Services: royalholloway.ac.uk/students/help-support/disabilities-and-dyslexia/home.aspx

Your first point of contact for advice and guidance is your Disability & Dyslexia Services Network Member in your department:

Name: Senior Postgraduate Administrator: Alexander Hale  
Phone: 01784 276769  
Email: Alexander.Hale@rhul.ac.uk

2.5.3  *International Student Support Office (ISSO)*

The International Student Support Office offers advice to international students on visa queries, working in the UK, opening a bank account, processing federal loans and police registration.

Phone: 01784 27 6168  
Email: internationaladvice@royalholloway.ac.uk  

Find out more about the International Student Support Office: royalholloway.ac.uk/studying-here/international-students/visas-and-immigration

2.6  *Students’ Union Royal Holloway University of London (SURHUL) Advice and Support Centre*

The Students' Union Royal Holloway University of London (SURHUL) is a registered charity and actively represents the students of Royal Holloway University of London. SURHUL promotes your needs and interests by offering employment, participation, entertainment, support and advice, your clubs and societies, catering, transport, volunteering, campaigning and advocacy.

Phone: 01784 24 6700  
Email: helpdesk@su.rhul.ac.uk

Find out more about the Students’ Union: su.rhul.ac.uk

2.7  *IT Service Desk*

The College IT Service Desk offers a range of support covering all aspects of IT services, such as email access, connecting to the College's wireless network, connecting devices such as iPads and making use of College printing facilities. The IT Service Desk will also be able to provide expert advice and guidance on a range of more specific IT issues, should you experience any problems.
They offer a range of free software, including Microsoft Office 365, Sofos Antivirus, NVivo and SPSS.

Phone: 01784 414321
Email: itservicedesk@royalholloway.ac.uk
In person: Visit the IT support office in the Davison Library (ground floor)

Find out more about IT services: royalholloway.ac.uk/students/help-support/it-services/home.aspx

3 Communication

3.1 Your College email account

The College provides an email address for you free of charge and stores the address in a College email directory. Your account is easily accessible, both on and off campus, via CampusNet (royalholloway.ac.uk/students/help-support/it-services/getting-started/get-connected/campusnet.aspx) or direct via Outlook.com (royalholloway.ac.uk/students/help-support/it-services/getting-started/email.aspx). It is essential to note that this email account will be used for all routine correspondence and news from the College. Your College email will very likely also be used for urgent communication, including correspondence from your supervisors so it is vital that you check your emails regularly.

In the event that you would prefer to use a commercial email service, you are able to connect your College email account so that it automatically forwards any messages you receive.

Instructions how to forward mail:
royalholloway.ac.uk/it/faq/itfaqs/staff/email/forwardcollegeemail.aspx

3.2 Internal post

All post addressed to you in your department will be delivered to student pigeonholes (alphabetical by surname) in the Post Room – 221 McCrea Building. At the end of each term student pigeonholes are cleared of accumulated mail so please try to ensure you check it at regular intervals. Please also note that Professional Services within the College will often send correspondence by internal post and your supervisor(s) may also return work to you via the pigeonholes.

3.3 Your contact information

It is imperative that the College has the most up-to-date contact details for you. As such, please ensure that you update the following via the Campus Connect student portal (cas.royalholloway.ac.uk/cas/login) as quickly as possible once they are changed: your telephone number (mobile and landline), postal address (term-time and forwarding), email address and emergency contact details.

You can find out about how the College processes your personal data by reading the Student Data Collection notice: royalholloway.ac.uk/students/assets/docs/pdf/student-data-collection-notice-final.pdf.
3.4 Dates for the Diary

The Research Degrees team will send a Doctoral School 'Dates for the Diary' email to your Royal Holloway email address at the end of each month, which provides details of events and opportunities for postgraduate research students which are coming up in the following month.

4 Facilities and resources

4.1 Facilities and resources within the departments of Mathematics and Information Security

4.1.1 Office facilities

The School provides a number of shared offices for research students. You are either allocated an individual desk in one of these offices or a hotdesk in the Doctoral Hub. You have 24 hour access to your office via your College card. These rooms are fitted with a security alarm - please remember the security arrangements. The staff Room (237) and kitchen are available as a common room.

You also have access to general office facilities, including printing, phone, fax, photocopying, post and stationery. These resources are provided for your postgraduate study. If you wish to use any of these for private purposes, please discuss your requirements with the Senior PG R Administrator, Alex Hale.

One of the noticeboards in the School is devoted to general interest information for postgraduates, such as academic conferences, details of College and EPSRC Postgraduate Training Workshops, Summer Schools, and so on.

At the end of your studies, you will be expected to vacate your desk, normally within four weeks of submitting your thesis. Your computer account and the use of a terminal will be made available to you whenever you need it up to the time of your viva, and afterwards if you have corrections to make to your thesis.

4.2 Computers

There are ten open access PC Labs available on campus which you can use, including three in the Computer Centre. For security reasons access to these PC Labs is restricted at night and at weekends by a door entry system operated via your College card.

How to find an available PC: royalholloway.ac.uk/students/help-support/it-services/find-a-pc/home.aspx
4.2.1 **Departmental Computers.**
All PhD students are entitled to a device which is funded by the department. This will be either a desktop or a laptop. You should communicate and agree your requirements with your supervisor who will notify the IT team.

4.2.2 **The Departmental Computer Policy.**
Attempts at unauthorised access to any part of the school's computer system, or the use of that system to attempt unauthorised access to College or external computer systems, will be treated as a serious disciplinary matter. Offenders may be reported to the police under the Computer Misuse Act 1990; the maximum penalty under this Act is six months imprisonment and an unlimited fine. Disciplinary action will be taken against any student storing or transmitting offensive material on the departmental computer system, including sexist, racist or pornographic text or pictures. The Technical Support Staff may deny access to any person suspected of misusing the system in any way. Students must not reveal their password to anyone. Use of the departmental System by students from outside the Computer Science Department must be authorised by the Head of Department. The Technical Support Staff regularly monitor the use of the departmental System, and records of a student's usage may be used in assessing their academic progress.

4.3 **Library**

The College library, housed in the Emily Wilding Davison Building, is open 24 hours a day, seven days a week. It provides more than 450,000 books and 36,000 journals in both print and digital format and a dedicated postgraduate room on the 2nd floor. The library contains a large number of PCs and provides laptops to borrow.

Phone: 01784 44 3823
Email: library@royalholloway.ac.uk

Find out more about the library: royalholloway.ac.uk/about-us/the-library

The Information Consultant for your Department is Leanne Workman who can be contacted at Leanne.Workman@rhul.ac.uk Phone 01784 414425.

The School's Library Liaison representative is Dr Yiftach Barnea.

4.3.1 **Research Support**
The Research Support team (royalholloway.ac.uk/students/campus-life/library/postgraduate/meet-the-research-support-team.aspx) in the library provides support on research information including copyright, Open Access publishing and developing your research information. The team can also provide advice for meeting research funders' requirements regarding Open Access. The team works with the Information Consultants to provide support throughout the research information cycle, from researching bids through to searching and accessing information for articles, books and other outputs through to submission of the PhD thesis and future career plans.

For training sessions and subject specific support, contact your Information Consultant who will be able to help you. Their details will be on the relevant Subject Guide (libguides.rhul.ac.uk), where you can also find details of resources available to you at Royal Holloway.

4.3.2 **Access to other libraries**
If you cannot find the specific items that you require in the College library, you also have access to
the following:

- **Senate House Library**
  This is the central library of the University of London, where you can borrow up to twelve books with a library ticket which you can obtain using your Royal Holloway College ID card.
  
  **Address:** Malet Street, London, WC1E 7HU
  **Phone:** 020 7862 8461

  Senate House Library website: senatehouselibrary.ac.uk

- **The British Library**
  The British Library is the national collection and holds copies of all books published in the UK and Ireland, alongside an extensive collection from other countries. A Reader Pass will be issued subject to your need to see specific items in the collections. Royal Holloway theses are available via Ethos (ethos.bl.uk), the British Library's electronic theses service which contains approximately 400,000 records of UK theses including 160,000 available for immediate download of the full text.
  
  **Address:** 96 Euston Road, London, NW1 2DB
  **Phone:** 020 7412 7000

  British Library website: bl.uk

- **SCONUL access scheme**
  Royal Holloway participates in this national university access scheme which allows students to use other university libraries in the UK.
  SCONUL website: sconul.ac.uk/sconul-access

4.4 Postgraduate research spaces

The College offers a number of areas specifically for postgraduate students outside of your department.

- **Research Postgraduate room in the library** (Davison Building)
  The second floor of the new library building contains a dedicated study area (libguides.rhul.ac.uk/pgr/LibrarySpace) for postgraduate students.

- **Doctoral Hub** (International Building IN030)
  The Doctoral Hub (royalholloway.ac.uk/doctoral-school/study/doctoral-hub-in030.aspx) provides study and social space specifically for postgraduate research students.

- **Arts Building - room AS17** (2nd floor)
  The room contains fifteen PCs. It is open to all students (PG and UG) during normal office hours and to postgraduates and staff between 7pm and 7am (code obtainable from the Computer Centre).

- **Highfield Common Room**
  The room is for those living in postgraduate accommodation on the Highfield site. It can be booked through the reception at Highfield. The room offers easy chairs, TV and video, and food- and drink-vending machines. The room must be vacated by 11pm.
4.5  Careers & Employability Service

The College’s Careers & Employability Service, based in the Davison Building, runs a number of industry themed weeks and a range of standalone events during the academic year including a careers fair in October.

One to one appointments are available all through the year, where you can talk over your career ideas or get your CV, cover letter or application checked. You can also book a practice, in person or video interview.

The Careers & Employability Service holds six workshops over the academic year as part of the Researcher Development Programme. The workshops deal with finding academic and non-academic roles and making relevant applications and interview skills.

Phone:  01784 44 3073
Email: careers@royalholloway.ac.uk

Find out more about the Careers & Employability Service: royalholloway.ac.uk/students/jobs-careers/home.aspx

5  Research skills and teaching

You should discuss your research skills training needs with your supervisor and adviser soon after you start your research degree and fill out the Research Student Training Log with details of courses that you should attend during the year.

5.1  Researcher Development Programme

The College's Researcher Development Programme is series of transferable skills courses designed for research students to help them develop their skills alongside their research. Some of these courses are specifically designed to help students complete their research degree, while others help develop more general skills and enhance your employability.

Email: pgrtraining@royalholloway.ac.uk

Find out more about the Researcher Development Programme: royalholloway.ac.uk/doctoral-school/researcher-development/educational-development/researcher-development-programme.aspx

5.2  Teaching experience and training

Your department may be in a position to offer you opportunities to undertake teaching and/or demonstrating opportunities. In the event that you are employed in a lead teaching role, you are required to register for the College’s in STIL programme (Programme in Skills of Teaching to Inspire Learning). If you are teaching as part of a team, you may choose to do this programme but are not required to do so. You must be engaged in teaching at the same time as participating in inSTIL, as teaching observations are an intrinsic element of the programme. The inSTIL programme is worth 15 M level credits and counts as seven days towards your skills training objectives.

Phone:  01784 41 6337
Email: edc@royalholloway.ac.uk

Find out more about the inSTIL programme: royalholloway.ac.uk/staff/teaching/professional-development/capital-instil-and-talent.aspx
6 Your registration status

Further details regarding the areas outlined in this section can be found in the Research Degree Regulations.

6.1 Study timelines

In order to retain your registration status as a postgraduate research student at Royal Holloway, you should be aware of the following timelines (if you are studying part-time, double the period). Please note that all PhD students start on the MPhil must successfully complete their upgrade review in order to be eligible to submit for the PhD:

<table>
<thead>
<tr>
<th>Level of programme</th>
<th>Deadline for upgrade to PhD</th>
<th>Deadline for submission of thesis</th>
</tr>
</thead>
<tbody>
<tr>
<td>MPhil</td>
<td>1st attempt within 20 months (FT)</td>
<td>3 years (FT)</td>
</tr>
<tr>
<td>PhD</td>
<td>1st attempt within 20 months (FT)</td>
<td>3 years (FT)</td>
</tr>
<tr>
<td></td>
<td>2nd attempt (if required) within 24 months (FT)</td>
<td>4 years (FT)</td>
</tr>
</tbody>
</table>

As these deadlines are based on the start date on your student record, it is very important that this start date is recorded correctly. If your start date has been postponed, make sure you submit a Change of start date form (royalholloway.ac.uk/doctoral-school/pgr-student-lifecycle/changes-that-affect-your-registration-status/change-of-start-date.aspx) within the first 6 months of your study. If you are sponsored on a Tier 4 (General) student visa, you are not permitted to change your start date in our records once you have used your CAS in a visa application.

These deadlines will be affected if you interrupt or change mode of attendance during your studies e.g. if you formally interrupt for 6 months, your submission deadline will extend by 6 months.

If you would like confirmation of your official start date or any of your deadlines, please contact researchdegrees@royalholloway.ac.uk. If there are extenuating circumstances which make it unlikely that you will be able to meet these deadlines, it is essential that you raise this with your supervisor / supervisory team as soon as possible.

6.2 Interrupting your studies

The Research Degree Regulations permit you to interrupt your studies for up to twenty-four months (whether consecutively or otherwise) on financial, medical or personal grounds on the recommendation of your supervisor and Director of Graduate Studies. Any period of interruption will only normally be permitted on exceptional grounds and must be approved by the Vice Principal on behalf of the College Board of Examiners Executive Committee (CBEEC). Students are also entitled to request an interruption of studies for reasons of maternity, paternity or adoption leave (royalholloway.ac.uk/doctoral-school/pgr-student-lifecycle/changes-that-affect-your-registration-status/maternity-paternity-or-adoption-leave.aspx).

Find out more on how to interrupt your studies: royalholloway.ac.uk/doctoral-school/pgr-student-lifecycle/changes-that-affect-your-registration-status/interruption-of-study.aspx

It is essential that you contact your supervisor or department at the very earliest possibility, should you find that you require a period of interruption to your studies. Please note, a back-dated (or retrospective) interruption will only be considered on the most exceptional grounds and in cases where the interruption sought is for a very limited period.

It is also essential that adequate supporting evidence is submitted with the request. See appendix B of the College’s Extenuating Circumstances guidance notes.
(royalholloway.ac.uk/ecampus/documents/pdf/exams/extenuatingcircumstances-guidanceforstudents.pdf) for advice on this. If you are still uncertain what evidence is suitable, please contact researchdegrees@royalholloway.ac.uk. Where applications are submitted that lack adequate supporting evidence, it is very likely that they will be denied or subject to significant delays.

During the course of your interruption of studies, you remain a registered student with the College and are subject to College Regulations. Unless you are interrupting your studies on the grounds of maternity, paternity or adoption, or in exceptional circumstances relating to mental health conditions, you do not have the right to use College facilities or receive supervision during the period of interruption, other than occasional access to your supervisor by arrangement.

6.2.1 Interrupting if you are sponsored by the College on a Tier 4 (General) student visa

If you interrupt your studies and you are in receipt of a Tier 4 (General) student visa sponsored by Royal Holloway, the College will withdraw its sponsorship for the duration of your interruption and you are obliged by UK Visas and Immigration (UKVI) to leave the UK for this period.

Find out more on how to renew your visa: royalholloway.ac.uk/studying-here/international-students/visas-and-immigration/during-your-studies/renewingextending-your-tier-4-general-student-visa

In exceptional circumstances, you may be permitted an authorised absence for a period less than sixty days. Under this type of authorised absence you are permitted to remain in the UK for the duration but this will impact the amount of leave remaining on your visa to complete your studies. Authorised absence must be approved in the same way as an interruption. To discuss the authorised absence process please contact student-administration@royalholloway.ac.uk.

6.2.2 Interrupting if you are funded by a Research Council or College scholarship

It is essential that, prior to requesting the interruption, you check with your funding body whether the conditions of your scholarship permit you to interrupt your studies. For advice about this, please contact researchdegrees@royalholloway.ac.uk.

If you are funded by a Research Council, please be aware of the following:

- Although the thesis submission deadline set by the College may be extended due to the interruption, it may not be extended by your Research Council. In such cases, the earlier Research Council deadline takes precedence. If you have queries regarding this, please contact researchdegrees@royalholloway.ac.uk.
- If you have requested up to 13 weeks sick leave, your thesis submission deadline will not normally be affected by this period of leave.

Find out more about interrupting when you are funded: royalholloway.ac.uk/doctoral-school/scholarships-and-finance/update-my-study-details-as-a-scholarship-recipient.aspx

6.3 Changing your mode of attendance

The Research Degree Regulations permit you to change your mode of study from full-time to part-time within the first 2 years of your study and from part-time to full-time at any point.

If you are sponsored on a Tier 4 visa, you will not be permitted to change to part-time, under the restrictions of our sponsorship.
6.4 Engagement with studies

According to the Research Degree Regulations, if your attendance, academic performance or productivity is unsatisfactory, the termination of registration may be requested following a formal warning process. It is therefore essential that you alert your supervisor / supervisory team as soon as possible if you are experiencing difficulties with engaging with your studies so that the appropriate support and advice can be provided.

6.4.1 Withdrawal of Tier 4 (General) student visa for non-engagement with studies

If you are in receipt of a Tier 4 (General) student visa sponsored by Royal Holloway, it is a requirement of your visa that you attend classes and supervisory sessions, and complete assessments (see section 5 of the Code of Practice for Research Degree students for more details).

The College has a legal responsibility to report any student admitted to the College on a student visa who does not appear to be meeting the attendance requirements to UK Visas and Immigration (UKVI). Therefore, if you fail to meet UKVI visa requirements and/or fail to respond to informal and formal warnings from the College in this regard, you could have your sponsorship withdrawn, your visa cancelled and your registration with the College terminated. The termination of registration due to a breach in visa requirements is conducted independently of the College's formal warning process and the decision is not open to appeal.

Find out more about visas and immigration: royalholloway.ac.uk/studying-here/international-students/visas-and-immigration/during-your-studies

6.4.2 Holiday

You are entitled to up to eight weeks holiday within a 12 month period of registration. You should notify your supervisor in writing of any holidays taken.

7 Annual review and upgrade

Although you will meet with your supervisor regularly during the academic year, your academic progress is formally reviewed at least once every twelve months. If you have interrupted your studies, the review will take place not more than two months after you have formally resumed your studies. Thus, for research students who commence their studies at the start of the academic year, the Annual Review should take place in September. The Annual Review need not coincide with a Quarterly Review Meeting, but it may be appropriate that it does. The purpose of the Annual Review is to take a broader look at progress and future plans than is typically done at Quarterly Review Meetings.

Annual reviews, and upgrades for students registered for an MPhil/ PhD, are conducted in a face-to-face meeting between you and a panel. As a minimum the panel must consist of:

- **Annual review panel:** At least one member of your supervisory team plus one member of staff completely independent of your supervisory team
- **Upgrade to PhD panel:** Three members, with at least one member of your supervisory team and one member of staff who is completely independent of your supervisory team.
Before the Upgrade Meeting the research student should submit a short Upgrade Report similar in content to the Annual Report for Annual Reviews, which must include plans for completion of the thesis (if these meetings are being combined then the Upgrade Report is the Annual Report). Any extenuating circumstances that may have affected performance should be submitted to the supervisor at least one week before the Upgrade Meeting.

At the Upgrade Meeting, the Annual Review Panel should seek to understand the progress that has been made towards the research degree, and provide feedback on progress and future research plans. Any extenuating circumstances that may have affected performance should be submitted to the supervisor at least one week before the Annual Review. Whilst the precise form of the meeting is up to the supervisor, the following arrangements are typical:

(i) The supervisor will ask the research student to commence with a short (e.g. 15 minute) presentation covering the research work that has been conducted over the past year. This should also include plans for the next year and mention of all research training and development activities that have been undertaken. If the research has progressed sufficiently (and necessarily if the Annual Review is also an Upgrade Meeting), plans for completion of the thesis should be discussed. The research student should expect to answer questions from the panel during this presentation.

(ii) In advance of the meeting, the research student should produce a short (around two pages) written Annual Report covering much of the same ground as the presentation, to be circulated either prior to the meeting or at the meeting itself. The research student should be prepared to discuss any issues arising from this report during the meeting.

(iii) The research training activities undertaken in the past year should be reviewed by inspection of the Research Student Training Log and research training needs for the next year identified.

(iv) If the registration of the research student has not yet been upgraded from MPhil to PhD then the requirements to be met before this can happen should be discussed.

(v) The Research Degree Student Review Form should be completed and signed by all present (the section relating to upgrades can be ignored unless the Annual Review is also an Upgrade Meeting). If appropriate, the latest PhD Quarterly Review Meeting Report Form should also be completed and signed (this identifies shorter term goals).

At the end of the Upgrade Meeting the Upgrade Panel will fill in a Research Degree Student Review Form, which will be signed by panel members present at the Upgrade Meeting, and will provide details of the outcome of this meeting. The student will be given an opportunity to fill in comments at the end of the form, should they so wish.

If it is agreed that the research student merits being upgraded, then the Upgrade Panel will complete the following documentation and return to the Director of Graduate Studies:

(i) Completed and signed Research Degree Student Review Form.
(ii) A copy of the students Annual Report.
(iii) The hard copy of the latest version of the Research Student Training Log.
(iv) Completed Student Feedback Questionnaire (this is a very basic confidential and anonymous feedback form that should be completed by the research student but not
shown to the supervisory team, and can also be downloaded from the departmental website).

(v) Completed and signed PhD Quarterly Review Meeting Report Form (if appropriate).

PT: Annual reviews for part-time research students should take place as face-to-face meetings, except in exceptional circumstances (in which case, for example, a conferencing tool could be used as a substitute).

MPhil to PhD Upgrade.

All research students are initially registered for the degree of MPhil, with the opportunity of upgrading to the PhD programme within the first two years of full-time study (four years of part-time study) following a formal review of progress. Only when candidates are exceptionally well qualified (for example, if they already hold an MPhil degree) will Royal Holloway consider initial registration for the PhD degree.

IMPORTANT: Please note that research students must upgrade before the end of 24 months for full-time study or 48 months of part-time study. If upgrade has not happened within this period then research students cannot complete a PhD and may only submit a thesis for an MPhil degree. Royal Holloway considers the upgrade meeting as an examination and, as such, only permits two attempts at upgrade to take place. A first upgrade attempt must be made within the first 20 months of full-time (40 months of part-time study). The most common stages at which to conduct upgrade are:

• At the first year Annual Review meeting: this applies to research students who have made excellent progress in the first year and are already have a reasonable idea of the direction of their future research work (and final thesis topic).

• At a special Upgrade Meeting sometime during the second year: in this case it is common for targets to have been set during the first year Annual Review that must be met in order to enable upgrade to take place.

Any decision to upgrade can only be taken with the agreement of an Upgrade Panel. The following minimum conditions must be met by any student who is upgrading from MPhil to PhD:

• The Upgrade Panel should be convinced that the research student is capable of completing a PhD degree within the remaining permitted time. This decision should take into consideration all the work that the research student has performed since first registering for the research degree.

• The first year requirements have been met.

PT: The timing of upgrade for part-time research students varies much more than for full-time students. Unless exceptional early progress has been made, this process should normally occur two to four years into a part-time research degree. The conditions for upgrade are exactly the same as for full-time research students. The Upgrade Meeting should take place as a face-to-face meeting, except in exceptional circumstances (a conferencing tool could be used as a substitute). Full details of the regulations governing the annual review and upgrade process are outlined in the Research Degree Regulations in the section on Reviews of academic progress.

It is important to remember that the upgrade from MPhil to PhD is not an automatic right. In the majority of cases, a panel will indicate that they are satisfied with a student’s progress. In some cases, however, the panel may feel that the work presented does not meet the required standard for doctoral research. In such cases, your panel may permit you to have a second and final attempt. See section 6.1 for the deadlines by which the 1st and 2nd attempts at upgrade must take place.
At the end of your annual review/upgrade meeting, your panel will fill in a form detailing the outcome of your review/upgrade, which provides you with an opportunity to add your own comments.

- In the event that your first attempt to upgrade from MPhil to PhD is unsuccessful, your panel may permit you to have a second and final attempt, which must take place within twenty-four months of full-time study or forty-eight months of part-time study. These periods are defined in line with the College’s Research Degree Regulations. intranet.royalholloway.ac.uk/staff/teaching/aqpo/academic-regulations-and-policies/academic-regulations-and-policies.aspx
- Where work presented is unsatisfactory, details of the problems and the course of action to be taken will be noted in the Research Degree Student Review. Additionally, the panel may decide that it is necessary to issue a formal warning. Details of the formal warning process, which could lead to termination of registration, are outlined in the Research Degree Regulations in the section regarding Termination of registration.
- At the end of your annual review/upgrade meeting your panel will fill in a Research Degree Student Review - Annual Review Form or Research Degree Student Review - Upgrade Form. This will detail the outcome of your review/upgrade and will provide you with an opportunity to add your own comments. Further information on annual reviews and upgrades along with the relevant forms is available online. Visit intranet.royalholloway.ac.uk/doctoral-school/home.aspx (select PGR student lifecycle).

Find out more about the annual review and upgrade process; royalholloway.ac.uk/doctoral-school/doctoral-school/pgr-student-lifecycle/annual-review-and-upgrade

7.1 Special arrangements

If you have a disability, specific learning difficulty or impairment and wish to ask for reasonable adjustments to be made to the conduct of the viva, please discuss these with your supervisor ahead of the meeting so that appropriate arrangements can be made.

7.2 Extenuating circumstances

If you want the annual review or upgrade panel to be made aware of extenuating circumstances that have affected your study, you should submit your statement and supporting evidence to the panel Chair within the deadline set by the department/school for the submission of material for the upgrade or review.

In the case of circumstances relating only to your performance at the upgrade or review meeting, you should inform the panel members and submit the statement and supporting evidence within seven days of the meeting to your department.

8 Research degree exam process

Overview of Masters by Research exam process: royalholloway.ac.uk/doctoral-school/pgr-student-lifecycle/research-degree-examinations/masters-by-research-examination-process.aspx

Overview of MPhil/PhD exam process: royalholloway.ac.uk/doctoral-school/pgr-student-lifecycle/phdmphil-exam-process/phdmphil-exam-entry.aspx
8.1 Submission of thesis

At least two months prior to submitting your thesis (or dissertation for Masters by Research candidates), you should complete an exam entry form and pass this on to your supervisor before submitting it to the Director of Graduate studies, so that your examiners can be approved and be invited in good time before you submit. If there is a delay in submitting the entry form, this does not affect your submission deadline but does mean that there may be a delay in the exam process once you have submitted the thesis.

The Research Degree Regulations stipulate that you must submit two bound copies of your thesis (via the Student Services Centre or by post) to the Research Degrees team and one electronic copy of your thesis to researchdegrees@royalholloway.ac.uk by your thesis submission deadline.

See section 6.1 for thesis submission deadline information.

Please refer to the Research Degree Regulations and the Instructions and notes on submission for the requirements of the thesis.

Find out more about the research degree submission process: royalholloway.ac.uk/doctoral-school/pgr-student-lifecycle/phd-mphil-exam-process.aspx

8.1.1 Departmental guidance on your thesis

Once a research student has achieved sufficient progress in their research then they will need to prepare a thesis reporting on this research. An important role of the supervisory team is to give advice to the research student on when this point has been reached. Of course, in many cases it will not be completely clear whether or not there is sufficient material until the writing up process is well under way. In any event, it is much better to start on the writing up process earlier rather than later. The act of writing up will itself often prompt a research student to identify and conduct the extra work necessary to fill in gaps in the existing research.

The role of the supervisory team in helping a research student prepare a well-structured thesis with appropriate content is crucial. Research students often have little idea of how to prepare such a large and complex document. Research students should discuss the provisional structure of the thesis with the supervisory team before starting to write the thesis, and should continue to discuss the structure and content of the thesis as it develops.

In terms of word length students should be aware that College regulations stipulate a maximum length for MPhil and PhD theses. If the student exceeds the word length stated in the Regulations or produce a thesis that is deemed to be too short, the examiners may refer the thesis for resubmission requiring it to be shortened to meet the word length requirement or extended to include more content, respectively.

Consulting existing theses on related topics is also a very worthwhile exercise. Many theses produced by recent research students are available as departmental technical reports, and all graduating research students are encouraged to make their thesis available to a wider readership in this way. Departmental technical reports are available here intranet.royalholloway.ac.uk/isg/informationfornewreturningstudents/mscproject/thesisprizes.aspx

Choosing examiners. Two examiners must be appointed by Royal Holloway to examine every research student who submits a thesis. Normally, one examiner will be internal to the University of
London and one will be external (not from the University of London). Neither the internal nor the external examiner should have worked with the research student prior to the examination, or have any other significant connection with the research student.

Whilst the formal appointment of examiners is outside the control of the supervisory team, they are nevertheless required to nominate candidates for these two roles. This is not something in which the research student will be involved.

Note that the research student must not make any direct contact with either of the examiners prior to the examination.

8.1.2 Royal Holloway proofreading scheme

CeDAS oversees the Royal Holloway proofreading scheme (royalholloway.ac.uk/students/study/academic-skills/cedas/academic-writing-and-communication/proofreading.aspx), which enables students to pay for an approved third-party proofreader to identify surface error in final drafts. Please note, the College does not permit the use of paid third-party proofreaders who are not part of this scheme.

8.1.3 Random submission of thesis to Turnitin

To help deter plagiarism, it is College policy to select a random sample of final research degree theses for submission to the plagiarism detection software, Turnitin, before the examination process is initiated. Exemptions are in place for theses covered by commercial confidentiality agreements. Turnitin reports are reviewed by the Director of Graduate Studies in your department. Should concerns be raised, you will be notified by the department.

8.1.4 Plagiarism

The College takes the issue of plagiarism and other academic misconduct extremely seriously. Please refer to the College’s Regulations on Academic Misconduct (royalholloway.ac.uk/students/study/our-college-regulations/attendance-and-academic-regulations.aspx) for what constitutes academic misconduct, as well as the procedures to be followed for the investigation of alleged academic misconduct and possible outcomes.

8.2 Viva

If you are submitting for a Masters by Research, the default is that you will be assessed on the dissertation alone and will not be required to have an oral examination (viva) on your dissertation.

Please note however that the examiners do have the discretion to request a viva once they have read the dissertation.

If you are submitting for an MPhil or PhD, however, you will be required to participate in a viva to defend your thesis. The viva should be organised by your supervisor.

8.2.1 Viva training

The College offers viva training for research student’s final oral examination via the Researcher Development Programme.

8.2.2 Departmental viva preparation
The College offers viva training for research students final examination as part of the Research Skills Programme. In addition, also our Shared Computer Science, ISG and Maths Training Programme offers a viva training tailored towards the specific needs of students in our School. This training is compulsory for students.

As well as Research Skills Programme training, it is often useful for the supervisory team to arrange a mock viva, prior to the real event, where two members of staff (e.g. the supervisor and adviser) spend some time acting as internal and external examiners. This will enable the research student to get a feel for what types of question might be asked.

The supervisor is responsible for arranging the viva, including negotiating the date and time with the examiners, booking a room in which to conduct the examination, etc. Typically, the viva will be held in the department at Royal Holloway. Guidance on the conduct of the viva is available here.

The supervisor may be present at the viva if the research student wishes. Past practice in this area varies, but in most cases the supervisor does not attend. If the supervisor is present during the viva then they can only act as an observer, and may only speak in this area varies, but in most cases the supervisor does not attend. If the supervisor is present during the viva then they can only act as an observer, and may only speak.

8.2.3 Special arrangements
If you have a disability, specific learning difficulty or impairment and wish to ask for reasonable adjustments to be made to the conduct of the viva, please indicate this on your exam entry form.

For further details, see section 16 of the Research Degree Regulations.

8.2.4 Extenuating circumstances
In the case of extenuating circumstances relating to your performance at your viva, you should inform researchdegrees@royalholloway.ac.uk prior to the viva, so that they can advise the examiners as appropriate and a decision can be made whether the viva should go ahead. If the viva does go ahead, you must submit an official request for the extenuating circumstances to be taken into account. This should be in writing and accompanied by supporting evidence and sent to researchdegrees@royalholloway.ac.uk within seven days of the viva.

8.2.5 Audio recording of viva
It is College policy that an audio recording will be made of all vivas.

- The recording will only be made during the viva between you and the examiners. No recording will be made of any discussion held before or after the viva when you are not present.
- The recording will only be listened to in the event of an appeal made against the viva outcome and then only by a small number of staff who are involved in the investigation into the appeal.
- The recording will be kept securely for 6 months after you have been informed of the outcome, after which time it will be destroyed.

8.2.6 Viva outcomes
Please refer to the Research Degree Regulations for the range of outcomes available to your examiners.
8.3 Award process

8.3.1 Approval process

Once your examiners have confirmed to the Research Degrees team that you have satisfied the criteria to be awarded your Masters by Research, MPhil or PhD, the outcome and examiners’ reports will be sent to your Director of Graduate Studies for initial approval and then the Faculty Dean to approve on behalf of the CBEEC (College Board of Examiners’ Executive Committee). The date of your award will be the 1st of the month following the Dean’s approval.

If you have been awarded a Masters by Research, there are no further requirements before your award can be processed.

8.3.2 Electronic submission of the final MPhil or PhD thesis

If you have been awarded an MPhil or PhD, you need to upload an electronic version of the finalised thesis on to the College’s research information system, Pure, before the award can be processed. The College strongly recommends that you check the details of these requirements well in advance of submission as they contain important information on copyright and Open Access.

Find out more about Pure: royalholloway.ac.uk/staff/tools-and-links/library/research-support/open-access/pure-support/submitting-an-e-thesis-in-pure.aspx

8.3.3 Documentation

Once your award has been processed by the Research Degrees team, you will be sent an award letter on College headed paper which includes the date of your award and your thesis title. Your degree certificate will be sent to you by the Diploma Production Office in central London within 3 – 6 months of the award letter.

8.3.4 Graduation

As a postgraduate research student, you can attend either the Summer or the Winter Graduation ceremony.

To be eligible to attend the summer ceremony:
- Your award date must be no later than 1 June of that year
- You must have submitted your finalized thesis to Pure by 30 June at the very latest

To be eligible to attend the winter ceremony:
- Your award date must be no later than 1 November of that year
- You must have submitted your finalized thesis to Pure by 30 November at the very latest

Find out more about the Graduation ceremonies: royalholloway.ac.uk/students/study/graduation/home.aspx
9 Appeals and Complaints

9.1 Appeals

By submitting an academic appeal, you are making a request for a decision made by the College relating to your academic studies or academic progress to be reconsidered. This must be done within 15 working days of the date on which you were formally informed about the decision.

Sections 21 and 22 of the Research Degree Regulations set out the grounds on which you can appeal and the process to be followed.

If you have also submitted a complaint and your grounds for an academic appeal are effectively dependent on the outcome of the complaint, the College may determine that the complaint should be investigated first under the Complaints Procedure. The complaint investigation will be carried out by the College Secretary's Office and your appeal investigation will be delayed until the complaint investigation is complete. The College will endeavour to complete these processes as quickly as possible. However, a thorough investigation takes time, so the College strongly advises that you continue to make plans on the basis of the decision as it currently stands.

Find out more about academic appeals: royalholloway.ac.uk/students/study/academic-appeals/make-an-academic-appeal-or-complaint.aspx

9.2 Complaints

A complaint is where, as a result of your experience at the College, you feel dissatisfied about the provision of services or facilities and would like your concerns to be investigated. Your concerns may be investigated under the Complaints procedure but normally only within three months of the incident or action being complained about.

If you have a complaint relating to any aspect of the department, or its staff, or to any academic or College matter, it is recommended that you first discuss it informally with your supervisor(s), advisor, Director of Graduate Studies or another member of staff in the department as soon as possible. In the majority of cases complaints can be resolved through such an informal route.

In those cases where the complaint cannot be resolved in this way, you may want to submit a formal complaint.

Find out more about complaints: royalholloway.ac.uk/students/study/academic-appeals/complaints/complaints.aspx

10 Student charter

The College aims to bring all students into a close, harmonious relationship with each other and with the wider community. The Student charter (royalholloway.ac.uk/students/study/our-college-regulations/your-responsibilities-as-a-student.aspx) outlines how you can support the College in achieving these goals and also seeks to encourage you to act as an effective ambassador for the College, during your time as a student and later as part of the College’s alumni.

This charter is not intended to constitute a binding agreement but is offered as a framework of aspirations, designed to be of benefit primarily to you as a student and to underpin the College’s aim of ensuring that you have a highly enjoyable and rewarding experience during the course of your research degree.
11 Feedback

It is vital that the Department should know of any concerns you have about the progress of your work or of any suggestions for improving the research environment. You have several ways of making your views known:

- by talking to your Supervisor(s), and perhaps by following up your discussion with a letter or e-mail, so that your comments can be forwarded if appropriate.
- by contacting the Director of Graduate Studies or the Head of Department, either to arrange a meeting or again by putting your ideas in writing.
- through the Department Postgraduate Student-Staff Committee (see below)
- in the on-line survey (see below) that you will be asked to complete as part of the Annual Review process (see also the Section on Annual Review and upgrade).

through the Students’ Union if your concerns or ideas relate to the College rather than to the Department

11.1 Your department’s PGR student-staff committee

This provides the formal mechanism for communication, feedback, and discussion between research students and staff in the Department. The Committee meets three times a year. It includes several PhD representatives (first year, second year, third-year, CDT and non-CDT and international, the Director of Graduate Studies (or its representative) and one member of administrative staff). The student representatives are elected near the beginning of each academic year and their names will be listed on the postgraduate section of the PHD CDT & ISG & Maths Moodle page. The student representatives can raise any problems or concerns affecting research students as a whole. The Committee reports to the Head of Department and to the Departmental Board.

Chair: Ben Curtis

11.2 Surveys

As a research degree student, you will be asked to complete an online survey to feedback on your experience each year. This anonymous survey is really important and helps us make improvements around the College and tells us how well we’re doing. It’s a chance for us to gain valuable data to inform enhancements to the experience of postgraduate research students.

12 Paid work

According to the Code of Practice for Research Degree students, any paid work you undertake to support your studies should not exceed 20 hours per week if you are registered as a full-time student. If you are a part-time student, there is no limit.

If you are an international student, you must also ensure that any working restrictions, as stated on your visa, are also adhered to.
13 Research abroad

If you are undertaking research abroad, please ensure that you agree this with your supervisor and ensure that details of the location and dates have been approved prior to undertaking the research. If you are sponsored by the College for a Tier 4 (General) student visa, please ensure that you receive approval from your supervisor prior to undertaking the research so that the College can update details of your study location with the UKVI, as required by the UKVI. If you do not do this you will be risking the continuation of your Tier 4 sponsorship with the College.

14 Health and Safety Information

General health and safety policies: royalholloway.ac.uk/students/study/our-college-regulations/health-and-safety.aspx

Any health and safety concerns should be brought to the attention of the Departmental Health and Safety Coordinator, Adrian Thomas, McCrea Building, Room 355A, telephone number 01784 443428, e-mail address Adrian.Thomas@rhul.ac.uk or the College Health and Safety Office.

The Department is committed to ensuring the safety, health, and welfare of all staff, students, and visitors. You are expected to adhere to the following whenever you are in the Department.

The School of Mathematics and Information Security is a low risk environment, but you should still take precautions by storing the emergency number for Campus Security in your mobile phone (01784 443888). There are phones in all the PG working labs which can be used for this purpose; use 444 from these phones.

14.1 Code of practice on harassment for students

The College is committed to upholding the dignity of the individual and recognises that harassment can be a source of great stress to an individual. Personal harassment can seriously harm working, learning and social conditions and will be regarded and treated seriously. This could include grounds for disciplinary action, and possibly the termination of registration as a student.

The College’s Code of Practice on personal harassment for students should be read in conjunction with the Student Disciplinary regulations and the Complaints procedure.

royalholloway.ac.uk/students/study/our-college-regulations/your-responsibilities-as-a-student.aspx

14.2 Lone working policy and procedures

The principles and guidance around lone working are often highly applicable to the nature of postgraduate research and the variety of activities this might involve. As such, awareness and planning around any lone working you may be required to undertake are essential.

Any health and safety concerns should be brought to the attention of the Departmental Health and
Safety Coordinator Narinder Sehra or the College Health and Safety Office. It is likely that most activities will take place on College premises. However, the principles also apply to students undertaking duties off campus.

Find out more about the College’s Lone working policy and procedure: royalholloway.ac.uk/staff/tools-and-links/health-and-safety/policies-and-procedures/lone-working.aspx

## 15 Equal opportunities statement and College Codes of Practice

### 15.1 Equal opportunities statement

The College values diversity and promotes equality of opportunity for all, both in its employment practices and admissions decisions, and in its teaching, learning and research activities.

Royal Holloway’s equal opportunities statement: royalholloway.ac.uk/staff/your-employment/human-resources/equality-and-diversity/home.aspx

### 15.2 Additional College codes of practice

Postgraduate research students pursue independent research in academic departments, leading to the award of the degree of MPhil or PhD. Successful progress depends primarily on their own efforts, supported by those of their supervisors, but also on the research environment in the department and on the quality of their research training. The College’s Code of Practice sets out the practices and procedures which underpin these efforts and outlines, amongst others, the responsibilities of student, supervisor, advisor and the students’ department(s). As a research student of the College you should therefore ensure that you familiarize yourself with the content of the Code as well as with the Research Degree Regulations which set out the regulations governing all aspects of MPhil/PhD study from admission to completion. A range of useful information is also available through the College’s Postgraduate Research Students page.
