Types of feedback:

Markers may use some or all of the feedback tools available. For example, not all departments use Rubrics.

Comment bubbles

Bubble comments allow your marker to provide you with more detailed feedback.

A bubble comment may be highlighted and is linked to a specific piece of text.

Comments can also be linked to rubrics / marking criteria (see left).

Numeric marks

You can view your paper's overall grade from the top right-hand corner of the Turnitin Feedback Studio. You can also see the maximum marks available for this assignment.

In some cases the mark may be subject to moderation.

Rubrics / marking criteria

Rubrics are used to provide feedback on marking criteria such as structure, argument and referencing.

This is tabulated and can be used to explain the mark received or, in some cases, generate the mark.

General comments

A text comment is an overall comment given by your marker regarding your whole paper.

This may include comments on positive aspects of your work, any issues it may have, and how you can improve it.

Comment bubbles

Comment bubbles allow your marker to provide you with more detailed feedback. A comment bubble may be highlighted and linked to a specific piece of text.

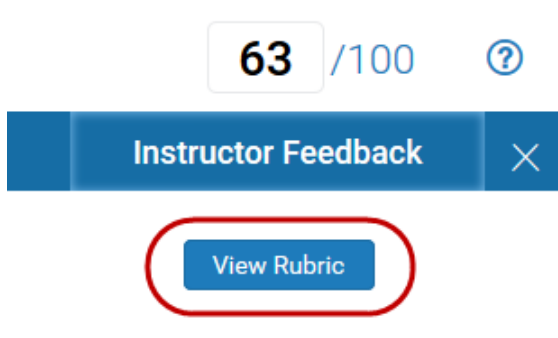

Alternatively, a bubble comment may be placed alongside a line or paragraph. This is usually the case if your marker is making a more general comment about your paper.

1. Click a **comment bubble icon** on your paper to view your marker's comment.
2. A comment can contain text and links – and may refer to rubric criteria (see next section)
3. Click anywhere outside of the comment window to close it.

Rubrics

Select the **View Rubric** button from the Instructor Feedback side panel to open the rubric for your assignment.

Note: If your browser has a pop-up blocker active, you may need to add turnitinuk.com & turnitincdn.com to its exceptions list in order to view the rubric.

Rubrics cont.

There are three components to a rubric; criteria, scales and feedback. Some rubrics may generate the mark; most are qualitative as below:

Assessment Cover Sheet

training 1 | Critical Analysis 1

Criteria	Scales	1	2:1	2:2	3	F
Relevance	entirely relevant; relevance demonstrated	relevant choices of material	appropriate use of material; not always backed up	dubious relevance; some waffle	substantially irrelevant	
Structure	very clear argument; argument leads reader from a strong introduction to balanced conclusion	clear introduction and conclusion; clear progression of ideas	introduction and/or conclusion weak; some repetition or unclear leaps	roduction or continuity of argument	little or no progression; argument very unclear	
Argument	independent ideas and analysis; critical engagement with wider reading where appropriate	well-informed, thorough; good command of material to back up claims	somewhat over-reliant on class / lecture notes; some evidence of wider reading	heavy reliance on class notes; if reading	No independent thought; no evidence of wider reading	
Writing	very clear and sophisticated expression; accurate handling of references	clear, functional, and easy to read; good handling of references	generally clear, but some lapses in written expression; sometimes inconsistent referencing	consistent problems of grammar, punctuation, spelling, register; poor referencing	poor style obscures meaning; incoherent referencing.	

This qualitative rubric will not result in a score. However, it is a valuable feedback mechanism for students and writers.

GENERAL COMMENTS

Instructor

This is, overall a good first essay and you should be proud of your achievement.

Your argument was clear and strong. You have demonstrated a broad and deep approach to researching the essay.

You must remember to provide references properly, and to avoid taking the shine off your work with poor spelling.
