Enable Panopto/RePlay on your Moodle course

Both Moodle and Panopto/RePlay services have been upgraded. Course editors need to add the RePlay block to Moodle courses to display to students recorded lectures and other video content.

Recordings of lectures can be requested via this web form:

https://intranet.royalholloway.ac.uk/staff/tools-and-links/professional-service-departments/audio-visual/replay-booking-form.aspx

1. Log on to Moodle, access your course and click the Edit icon to switch editing on.

The Edit icon is at the top-right hand side of the course page.

The Edit menu will appear.

Click on Turn editing on

2. With editing on, the Add a Block menu will be visible (on the right-hand side of the course page)

3. From the drop-down menu in the Blocks menu, choose RePlay
Enable Panopto/RePlay on your Moodle course cont.

4. When the **Replay Block** appears on the right-hand side of the course page, click on the **Provision Course** link.

5. When the page confirms that this has been successful, click on the **Back to course** link.

6. The **Replay block** will display - it will be empty of course as this is a new academic year.

   Requests for the transfer of content can be sent to e-learning@rhul.ac.uk

   From the block you can:

   Access Course settings, from where recordings can be edited and non-lecture content can be uploaded.

   Download the Panopto App for recording non-lecture content.
