REHEATING TOAST
14 Leave the browning control at your
favoured setting, insert the bread, lower the
lever, then press the button.
15 The light glows, the toast gets a short
burst of heat, then it pops up.
16 Only reheat plain, "unbuttered" toast.

HINTS AND TIPS
17 Old (yesterday's) bread has less moisture, so
makes crisper toast.
18 Old bread, thin slices, and sweet bread
products (tea cakes, fruit loaf, etc) brown
faster – use a lower setting.

CARE AND MAINTENANCE
19 Unplug the toaster and let it cool.
20 Wipe outer surfaces with a damp cloth.

ENVIRONMENTAL PROTECTION
To avoid environmental and health
problems due to hazardous substances in
electrical and electronic goods, appliances
marked with this symbol mustn't be disposed of
with unsorted municipal waste, but
recovered, reused, or recycled.

GUARANTEE
Defects affecting product functionality
appearing within two years of first retail
purchase will be corrected by replacement or
repair provided the product is used and
maintained in accordance with the instructions.

Wipe outer surfaces with a damp cloth.

CLEANING AND USER MAINTENANCE
2 Cleaning and user maintenance shall not be done by children
unless over 8 and supervised.
3 Keep the appliance and its cord out of reach of children under 8.
4 Don't use the toaster with a timer or remote control.
5 The surfaces get hot in use.
6 Bread may burn. Don't use the toaster near or below combustible material, like
curtains. Watch it while it's hot.
7 If the cable is damaged, return the toaster, to avoid hazard.
8 Don't immerse the appliance in liquid.
9 Only using one slot, leave the other
10 slots empty, as both slots will become "live".
11 Unplug the toaster when not in use.
12 Don't put anything on top of the toaster.
13 Don't toast or reheat "buttered", torn, or
misshapen bread.
14 If bread gets jammed, unplug the toaster,
let it cool, then carefully remove the bread.
15 Don't use the toaster for any purpose other
16 than those described in these instructions.
17 Don't use it if it's damaged or malfunctions.

BEFORE FIRST USE
- Check the slots are empty, set the browning
level to 7, and use the toaster without bread.
- It may smoke a bit, but it's nothing to worry about – ensure the room is well ventilated.

TOASTING BREAD
1 Sit the toaster upright on a stable, level,
heat-resistant surface.
2 Route the cable so it doesn't overhang, and
can't be tripped over or caught.
3 Bread may burn. Don't use the toaster near or below curtains or other combustible
materials, and watch it while it's hot.
4 Put the plug into the wall socket.
5 Set the browning level (1 = light, 7 = dark).
6 Put bread into the slots (max 22mm thick).
7 Press the lever down fully – it won't lock
down unless the toaster is connected to the
electricity supply.
8 The light glows, and the elements heat.
9 When it's done, the toast pops up, the light
and elements go off.

EJECT
11 To stop the toaster mid-cycle, press .

FROZEN BREAD
12 Leave the browning control at your
favoured setting, insert the frozen bread,
lower the lever, then press the button.
13 The light glows, and the toasting time is
altered automatically to give the same level
of browning you get with unfrozen bread.
