Graduate Programme

As a graduate at Samsung, you'll benefit from attending an unrivalled two-year development programme designed to develop future leaders of our business. You'll be given responsibility from the outset in a fast-paced, exciting working environment with the chance to work on multiple projects and gain experience and knowledge from subject matter experts across the business.

Samsung Electronics UK offer graduate opportunities across a range of departments. The majority of our graduate opportunities are rotational positions providing exposure to a variety of teams – make sure you read our detailed job descriptions on our careers site to find out more!

I started in September 2020 in the European Office Digital Marketing team. The exposure and responsibility I have been given to teams across the world has been great and I feel like I've had opportunities to develop my skills including stakeholder management, balancing priorities and confidently voicing my opinions. I also have the opportunity to work on things outside of my day-to-day role like the Women @ Samsung ERG which I'm the Graduate lead for.

Lucy Robinson, eCommerce & Samsung.com
Marketing Graduate

1. Connect with other interns
2. Two week onboarding programme
3. Graduate buddy assigned
4. Formal training & development sessions

Educational programmes at Samsung

We offer lots of opportunities for young people to get involved with our Corporate Social Responsibility programmes:

**Solve for Tomorrow: Next Gen**

Solve for Tomorrow: Next Gen is designed for students aged 11-15, and encourages them to learn about Design Thinking and different STEM careers with experts from Samsung.

**Solve for Tomorrow (16-25)**

Samsung Solve for Tomorrow offers young people a chance to explore the role tech can play in solving some of society’s biggest issues across the themes of Education, Sustainability, Diversity, Equity & Inclusion, and Social Isolation.

**The Online Together Project**

This interactive tool has been designed by Internet Matters and Samsung to help support all young people, their parents and careers, to develop critical thinking skills and encourage a positive and inclusive culture online.
Skills for work
Skills for work

Soft skills

the combination of people skills, social skills, communication skills, emotional intelligence,

and personality traits that make it easy to get along and work harmoniously with other people.
Skills for work

Soft skills

- empathy

- innovation
- resolution
- analytical
- delegation
- ambitious
Skills for work

Confidence

Why it is important?

• Help you be more assertive, take risks and make decisions with conviction
• Enables you to share your ideas and thoughts
• Improves your reputation
• Allows you to communicate effectively
• Enables you to feel comfortable presenting

Comes naturally to some

But, it is a skill that can be learnt & practiced
Skills for work

I challenge you:

- Step outside your comfort zone
- Join a club & meet new people
- Take advantage of opportunities, present in public

Confidence

How to improve...

- Identify your strengths and weaknesses
- Set achievable goals and celebrate your successes
- Practice self-care and maintain a healthy work-life balance
- Seek feedback from others and learn from your mistakes
- Surround yourself with positive people who support and encourage you
Thank you
Appendix

More on opportunities with Samsung
Samsung Solve for Tomorrow is an opportunity like no other, offering young people a chance to explore the role tech can play in solving some of society’s biggest issues across the themes of Education, Sustainability, Diversity, Equity & Inclusion, and Social Isolation.

All it requires is a game changing tech for good idea, and you’ll have the chance to win £10,000, 3 months expert mentorship and the latest Samsung tech.

Applications for this year’s competition close on 18th December 2023 – don’t forget to apply!

Click here to watch the Solve for Tomorrow video

This year’s 18-25 Winner: ReGrow (Kiara). ReGrow repurposes e-waste to make a low-cost irrigation system aimed at farmers in Ghana to help them increase their crop yield.

This year’s 16-18 Winners: OLEO (Joseph, Ben, and Liam). OLEO is a device that removes micro plastics from polluted water using waste cooking oil from fast food chains and restaurants.

This year’s 16-18 Winners: OLEO (Joseph, Ben, and Liam). OLEO is a device that removes micro plastics from polluted water using waste cooking oil from fast food chains and restaurants.
Solve for Tomorrow: Next Gen is designed for students aged 11-15, and encourages them to learn about Design Thinking and different STEM careers with experts from Samsung.

As well as offering educational resources for students, including a video lesson and workbooks, we encourage students to submit their own tech for good ideas into our Solve for Tomorrow: Next Gen Competition for the chance to win brilliant Samsung tech prizes for themselves, their teachers, and their school.

There are a number of tech prizes up for grabs, including a Samsung Galaxy Tab S8, and a VIP invitation to a Samsung event.

Last year’s winner, Alec, created an app to encourage farmers to use more sustainable farming practices.
The Online Together Project

This interactive tool has been designed by Internet Matters and Samsung to help support all young people, their parents and careers, to develop critical thinking skills and encourage a positive and inclusive culture online. The free online skills tool is designed as a quiz to encourage learning through questions and conversations.

The first topic was gender stereotyping, and this year we launched a second on online hate. This topic covers what online hate is, how to recognize it and how to stop it. The aim is to empower young people to tackle online hate and challenge negative behaviours in their digital spaces with this interactive tool.
