DIVERSITY & MENTORING SCHEME

- Our ability to build trust, understand problems and support our communities across a range of policing matters, relies on us having a workforce that is reflective of our communities and all the unique individuals that exist within them. We are committed to promoting equality and diversity within our workforce and to eliminating discrimination.

- We are very keen to encourage applications from those that have never considered policing as a career. Representation within our workforce from black and minority ethnic communities is currently much lower than we want it to be; by improving this we will be better able to serve our local communities and our work place will benefit from all the differences in thinking, points of view, and approaches that diversity brings.

- We are actively working on a range of activities to improve this and one of the proactive ways we are seeking to increase representation is via a bespoke mentoring scheme which is aimed at guiding applicants from diverse communities through the recruitment process.

- For more information email positiveaction@surrey.pnn.police.uk

- We are running a series of PC recruitment information evenings for under-represented communities in 2020 at our Guildford HQ. Our next one is on Thursday 21 May. For more information and to register visit: https://surreypoliceinclusion.eventbrite.co.uk
