

Making the most of our sessions

- Everyone is strongly encouraged to switch on their camera when speaking to take part in the discussion
- Speaking clearly will help anyone using captions to follow the conversation
- Own your learning by being an active participant in class and in your further studies. Ask questions and you'll contribute to the effective learning environment
- Don't forget to mute yourself when not speaking
- We prefer to allow everyone to share screens and be in control, but if that causes issues, settings can be changed

Please be kind and respectful in your comments, both spoken and written in the chat
