

Installing the MyView app

ROYAL
HOLLOWAY
UNIVERSITY
OF LONDON

How to access the new MyView app

The MyView app will allow you to do everything you usually do on the system, but from your phone.

You can access it by:

- Downloading the app from the App Store or Google Play Store. You can search for 'MyView', or scan one of the QR codes below:

Apple App Store Users
Google Play Store Users

- As with the web portal, you will need to authenticate via MFA to login to the app.
- Once downloaded, you will need to enter a 'registration code'.
- You will then be prompted to login with your normal University username and password.
- Your phone will need to have PIN or Biometric authentication enabled for this app to work.

How to get the registration code

- Log into MyView > Account (top right next to log off)
- Select Register for mobile app
- An email will be sent to your email address with the registration details in.
