

## **RH100 Update on the Access and Participation Plan**

Since our session with the RH100 panel at the start of February we have been busy planning for our new APP which will be submitted in Spring 2024. We have been exploring the feedback gained from the RH100 panel and considering where we can implement certain suggestions as part of the new APP, having categorised the feedback into broad themes. We have also examined the data we already have in order to understand which groups of students need more support, and we are planning a staff consultation event at the start of May.

We are hoping to run student focus groups over the summer with those from the RH100 panel that volunteered to be involved in this. The focus groups will give us more insight into the lived experience of students and will help to shape the aims of the new plan, as well as giving us ideas for new activities we will be creating to provide the support that's needed.
