

Max Carey Memorial Prize Application

Vadim Kudruk

My motivation behind all the work done during my 3rd year was to leave a footprint in my University. I created a platform for students within a society while leading and organising various events with big firms like Deloitte, BP, CGI and Monzo.

Established a partnership with Surgify by working with its founder Arun Rowe. The result: Entrepreneur society became a platform that connects students with leading mentors (F.e. BBC apprentice candidate, founder and managing director of national food brand and other entrepreneurs who were able to raise or generate \$millions through investment or sales).

Organised the largest startup and entrepreneurship related event securing the funding from Management Department. Speakers: Alex (Head of Mobilisation at Monzo) from Monzo (online bank that competes with top national British banks, valued over £50 million), founders of platform for students looking for volunteering opportunities, Iman, Founder at Crowdskills, and Oleg, Founder at Guidelighter (platform that connects students with top British mentors).

Startup event (1,2) + Me leading the event (3):

In total, I lead and organised 10 events in 7 months. Some events were workshops (Deloitte, BP, and CGI) where students interacted directly with employers and field trips (London Startup Conference, Business in Performing Arts with Cameron Mackintosh). I could expand more on the other activities that I was involved in, but the word count does not let me to. For more information please refer to reference from my academic tutor (reference section).
