Siblings Together

Community Action Partner

Siblings Together

Aim:

Siblings Together promotes positive contact between brothers and sisters separated by care, kinship care and adoption. The trauma of separation from siblings and its lifelong effects are often overlooked. We aim to help young people in care initiate and continue to have contact with their siblings, helping them to develop strong family bonds and above all achieve an independent and positive place in society supported by their sibling relationships. Siblings Together provides opportunities for planned, enjoyable, creative and high quality sibling contact.
